May 1, 2009

Dear Resident:

**East/ Spring Street Drainage Improvement Project (Phase 2)**

The East Street/Spring Street drainage improvement project is scheduled to begin May 20, 2009 and be completed this summer. This project, which was approved at Town Meeting, will abate flooding on East Street during periods of heavy rain. The project limits are from Spring Street @ Cardinal Road to Cherry Street @ East Street. Eastbound traffic on Spring Street will be detoured down Fatima Road, exiting Eastern Avenue. Westbound traffic on East Street will be detoured down Crystal Drive exiting Fatima Road.

The detour will be in affect from 7:00 a.m. to 5:00 p.m. on weekdays. It may be necessary to restrict on-street parking in some areas. Two-way traffic on East and Spring Streets will be restored after 5:00 p.m. on weekdays and no detours or parking restrictions will be implemented on weekends. The Public Works Department and the Police Department will work closely with you to resolve any problems that arise. Thank you for your cooperation and understanding in this matter.
